

# Security/privacy workshop

For activists

**Why does it matter?**

# Where are we at?

- Surveillance capitalism is now the most powerful form of capitalism
  - Google
  - Facebook
  - Microsoft
  - Twitter
  - Amazon
- You are tracked by these companies everywhere you go on the internet
- Steal data —> Model you —> Predict your behaviour —> Sell your attention **for whatever purpose pays**
- This works better **if they change your behaviour and how/what you think too**

# Behaviour modification

- Who chooses the new behaviour? Very rich, climate denying, neoliberal capitalists
- This goes way beyond targeting ads to sell things:
  - Cambridge Analytica + Facebook: Vote Leave (Brexit)
  - Cambridge Analytica + Facebook: 2016 US election
  - Fossil fuel companies
- It specialises in spreading misinformation and polarising people, all for the profit of a few rich people (usually in Silicon Valley)
- Surveillance capitalism is destroying democracy

# See it for yourself

- The Social Dilemma (1.5 hours): <https://www.netflix.com/title/81254224>
- The Great Hack (1.5 hours): <https://www.netflix.com/title/80117542>
- The Age of Surveillance Capitalism: <https://www.worldofbooks.com/en-gb/books/professor-shoshana-zuboff/age-of-surveillance-capitalism/9781781256855>

# This is bad

**But you are also an activist, so it's worse.**

- It erodes democracy and the right to protest
- The information gathered will be used against you to sabotage protest efforts
- There are companies that specialise in monitoring activists and report back to governments and (oil) companies
  - <https://www.standard.co.uk/news/politics/welund-city-hall-london-xr-b74225.html>
  - <https://www.dailykos.com/stories/2018/9/17/1796352/-The-Fossil-Fuel-Industry-is-spying-on-environmental-activists-and-organizations>
- The information will also be used against you in court

# City Hall faces questions over contract with spy firm gathering intelligence on protests

## The Private Intelligence Firm Keeping Tabs on Environmentalists

When big oil companies want to monitor activists, they turn to Welund.

Adam Federman

[Bio](#)

# Scare stories!

# It's clear: we need security and privacy

## It's not too hard to get it

- We need to secure:
  - Devices
  - Communication
  - Storage
  - Using the internet (browsing, searching, watching)
- Every person who is secure and private:
  - Keeps themselves safe
  - Keeps every single activist they communicate with safe
- It takes one person to endanger an entire network of people

**Communication**

# Communication - main points

- For calling and messaging people/groups:
  - Use Signal by default
  - **Definitely** avoid Facebook Messenger and SMS texts
  - Avoid WhatsApp if possible
  - Always use disappearing messages, and before an action, reduce the time they take to disappear proportionally
  - Avoid putting your real name or details in your profile - choose an alias
- Email:
  - Use Protonmail <https://protonmail.com/>
  - **Definitely** avoid Gmail, Outlook, Hotmail etc.
  - Enable FaceID, TouchID, or PIN on the app
- Meetings:
  - Use Signal for up to 40 people
  - Otherwise, Zoom is okay IF END-TO-END ENCRYPTION IS ENABLED (this is not the default)

# End-to-end encryption vs. encryption

- **End-to-end** - only you and the other *end* users of the call or messages can read/see the content
  - If it doesn't say end-to-end, it's not end-to-end (e.g. Zoom's default)
- **Not end-to-end** - the company running your chats or call can read/see the content and:
  - Watch/read it in real time
  - Record it for later
  - Send it to the police or government

# Important Signal settings

- Name and photo - use an alias and generic picture
- Account
  - Add a PIN and turn on PIN reminders
  - Turn on registration lock
- Privacy
  - Set default disappearing messages
  - Turn on screen lock
  - Don't show calls in recents

Done

## Settings

 Account > Linked Devices > Payments > **BETA** Appearance > Chats > Notifications > Privacy > Data Usage > Help > Invite Your Friends Become a Signal Sustainer > Signal Boost >

18:00

## Profile

Save

Edit Photo

 . > About >

Your profile is end-to-end encrypted. Your profile and changes to it will be visible to your contacts and when you start or accept new chats. [Learn More](#)

18:00

## Account

## Signal PIN

Change your PIN &gt;

PIN Reminders 

PINs keep information stored with Signal encrypted so only you can access it. Your PIN cannot be recovered. Your profile, settings, and contacts will restore when you reinstall Signal. [Learn More](#)

Registration Lock 

Require your Signal PIN to register your phone number again with Signal.

Use Face ID to unlock Signal.

### Calling

Show Calls in Recents

Show calls in the "Recents" list in the iOS Phone app.

Advanced >

Censorship circumvention, relay calls, and sealed sender settings.

Using the internet

# Using the internet - main points

## For phone and computer

- Browser
  - **Definitely** don't use Chrome or Edge
  - Use Brave browser <https://brave.com/>
  - Alternatively, Safari is okayish
- Use a VPN
- Use DuckDuckGo instead of Google for search <http://duckduckgo.com>
- Use a password manager (Apple has Keychain built in)
- Don't use public or free wifi (without a VPN)
- Log out of Google and Microsoft in your apps

# VPN

## For phone and computer

- Hides your IP address (i.e. hides your physical location)
- Hides your internet activity from your service provider who **will** be logging and tracking you (they're surveillance capitalists now)
  - Your service provider is legally obliged to hand over data on what you've been doing when asked by the government/police
- Blocks malware, ads, and trackers
- Have Protonmail? Then you also have a ProtonVPN account
- <https://protonvpn.com/>

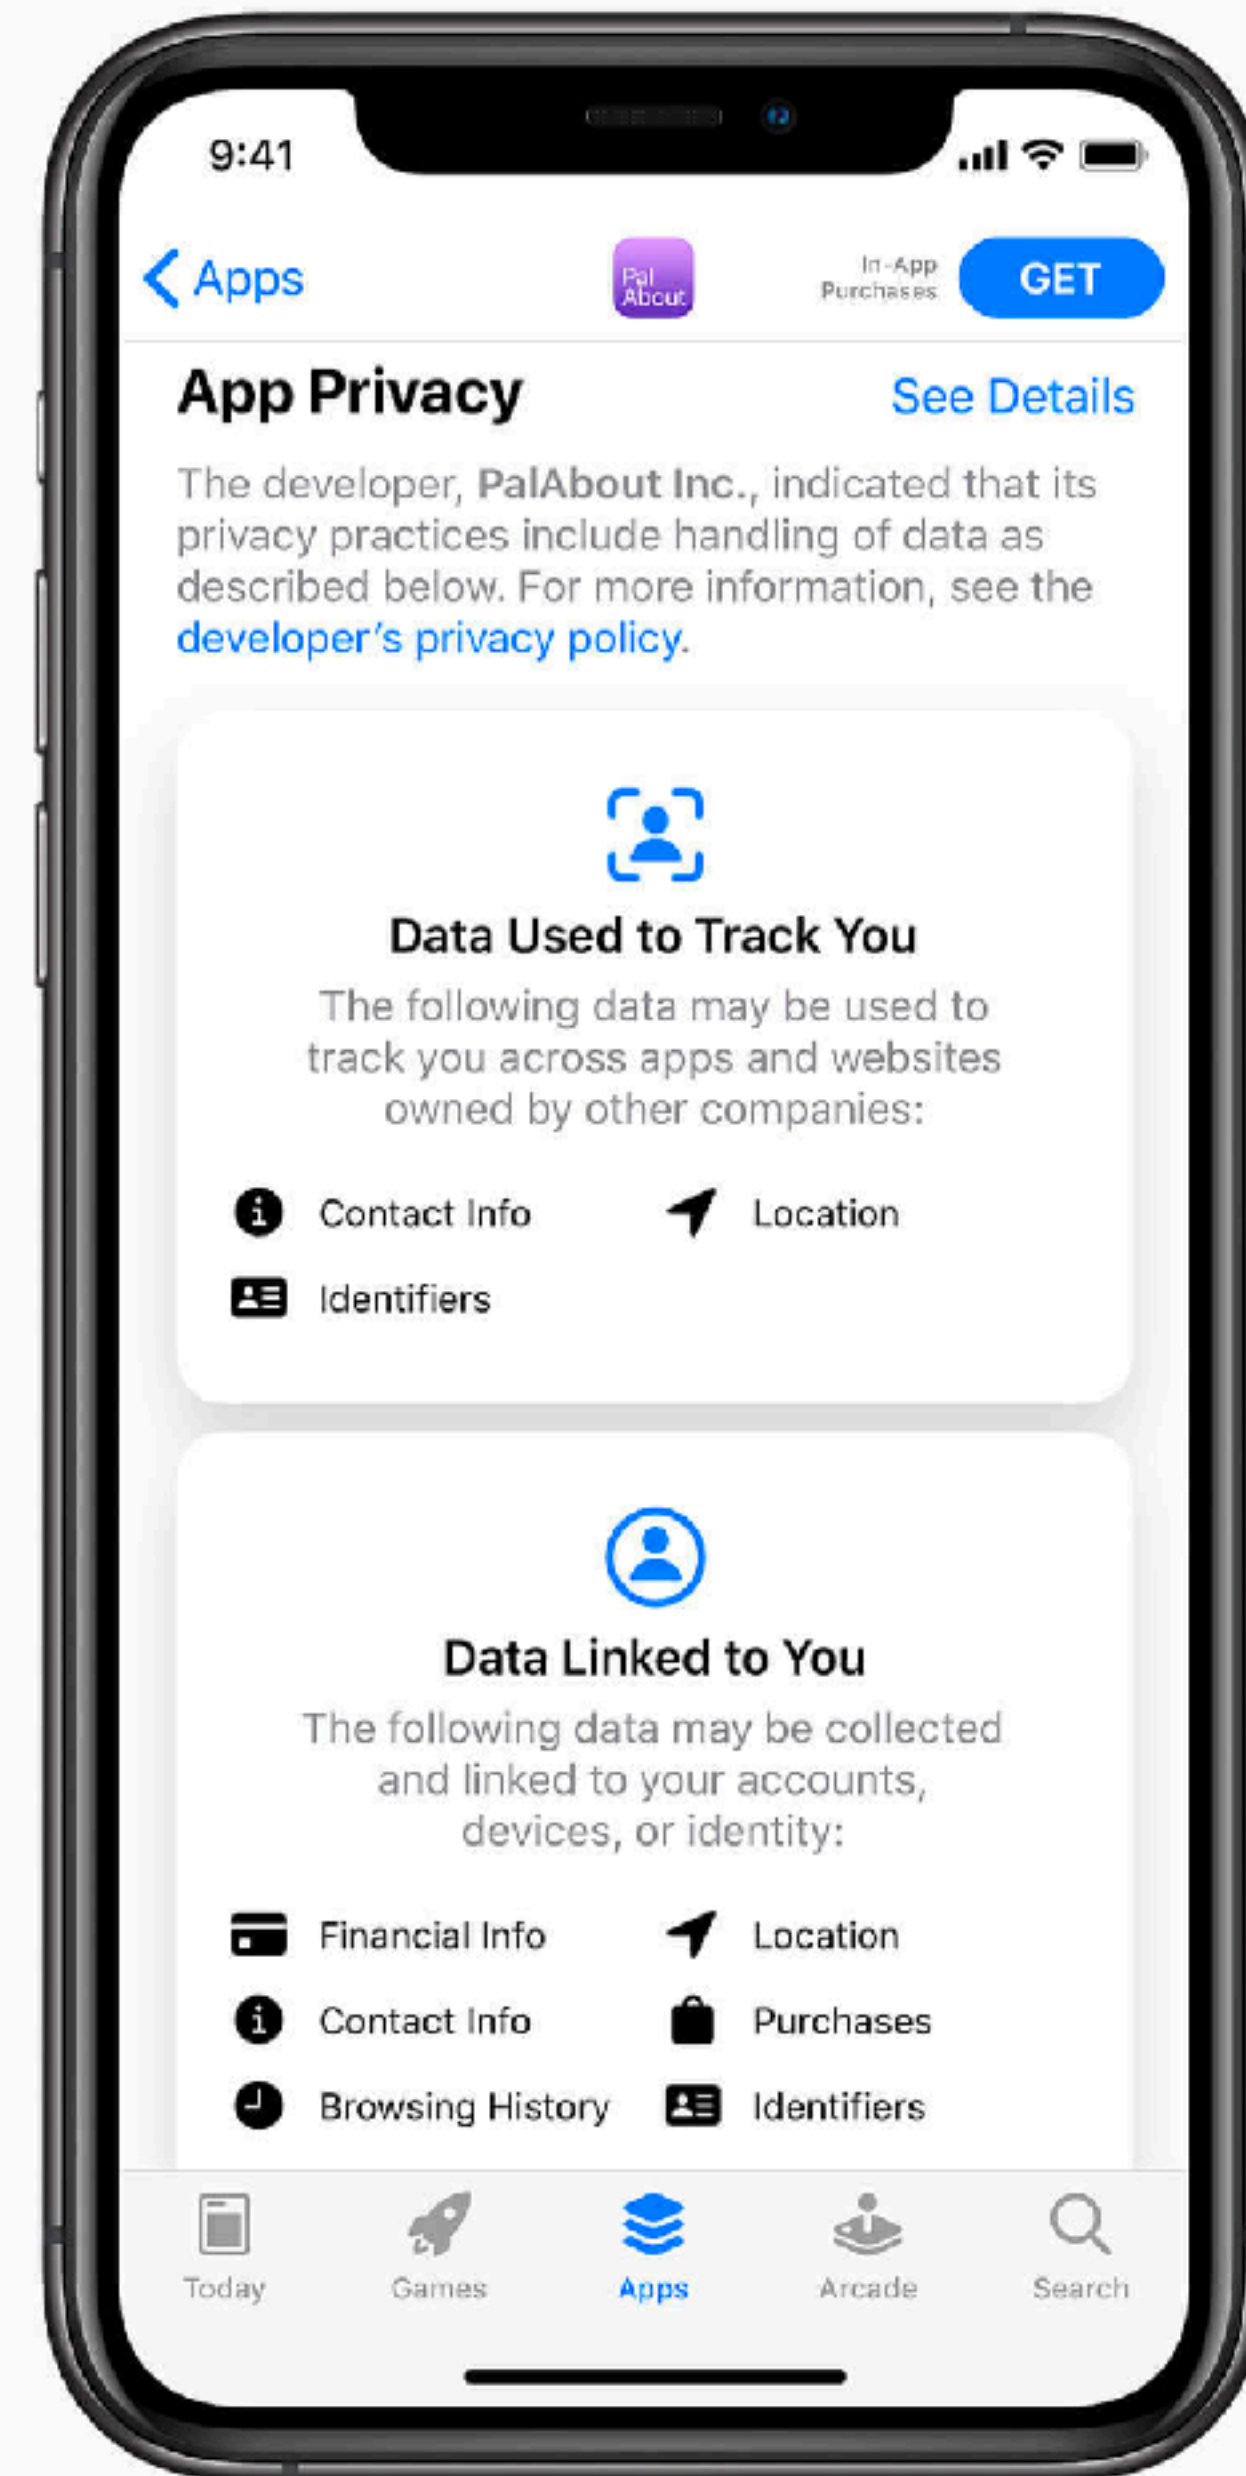

# Online office and storage

- Use [cryptpad.fr](https://cryptpad.fr) by default
- If you use Google Drive:
  - Set the privacy settings to maximum
  - Make it as anonymous as possible (e.g. make an account for your local group that you share)
  - Never store activists' personal details
  - Never store spicy action details
  - Avoid using Google drive as much as possible

# Phone security

# Phone security - main points

- Encryption!! (doesn't work unless phone is turned off)
- Passcode **not** face or fingerprint; delete data on 10 failed attempts
- Don't show notification details unless unlocked
- Disable app tracking
- Limit access to location services and other personal things
- **Don't** use Google maps - use Apple maps
- Don't name your phone after yourself
- Disable targeted ads
- Avoid taking your phone to protests where you are likely to be arrested
- If you take your phone:
  - **Fully** turn off wifi and bluetooth at protests
  - Turn off your phone your phone when you can, and definitely before arrest

# Main points continued

- Remove unused apps
- Always update your phone and apps

# If your device is seized

- You are under no legal obligation to open it, no matter what they say to you. They will try and scare you in to opening it
- If you give them the passcode, they will have full access to your phone, potentially forever
- This puts all your activist friends at high risk of raids, arrest, and conviction

# If your device is about to be seized

- If you have time, clear data on signal and delete the app
- If you don't have time for this, just switch the phone off
- Try and hide the phone or give it to someone else
- Don't respond to questions about where the phone is or may be - no comment

# Computer security

# Computer security - main points

- Encryption!! (doesn't work unless computer is turned off)
- Require password immediately; don't use biometrics
- Firewall
- Don't name your laptop after yourself
- Limit access to location services and other personal things
- Don't show notification details unless unlocked
- If using Safari, prevent cross-site tracking

# Main points continued

- Remove unused apps
- Always update your phone and apps
